California Consultation Webinar Series

To develop an initial California program plan for SB 54, CAA is hosting a series of topic-based consultation webinars to solicit input from interest holders. Each webinar offers a dedicated opportunity to submit your insights, directly shaping a robust and effective plan for meeting California's ambitious recycling and packaging waste reduction goals.

Session Format

Consultation sessions are open to all interested parties engaged with the respective topics. Each session will feature:

- **A presentation from CAA outlining our proposed approach**
- **Q&A via chat submission**
- **Comprehensive post-webinar questionnaire to capture input and feedback**

Fact sheets detailing the session's content will be posted a week before each webinar.

Webinar Schedule

Topic	Date	Time (PT)
Compostable Packaging and Single-Use Service Ware	Oct. 6	10–11 a.m.
Covered Cost and Payment Mechanism	Oct. 14	1–2 p.m.
