The Numbers...

- Globally more people are over 65 than under 5 for the first time; in the U.S. more people are older than 60 than under 18.
- Each day, 10,000 people turn 65 years of age. According to the Pew Research Center, for the first time, millennials now outnumber baby boomers in the workplace 76 million to 75 million.
- Millennials comprise 1/3 of the current workforce at 78 million and by 2025 they will make-up 75% of the workforce.
- The millennial generation has different work motivations and expectations for greater work/life balance.
- The workforce will be more culturally and ethnically diverse and include more highly educated women, military veterans, and people with disabilities.
- Expectations are likely to increase for customized benefits, mobility of benefits, and flexible work options.
